

Power My Learning ★★★★★

Posted by George Knight

Description (link to 3 min. video)

Power My Learning contains high-quality educational activities for kids in grades K-12. Teachers make play lists of learning activities for students to enjoy. A search menu allows you to find activities by grade, subject and type of activity (games, videos, content, creative tools).

Pros

- *The high quality resources are easily searched and added to play lists*
- *Play list can be customize on a student by student basis*
- *Teachers can add their own assignments that can link activities together*
- *A leader board that tracks minutes played and top scores*
- *Teachers can track minutes played per activity by student and class*
- *It's free, it's gamified, and students will love it.*

Cons

- *Content all comes from external sources, embedded in the P.M.L. environment, but may require different supporting requirements*
- *Need to register before you can see the content*
- *US server so due diligence needs to be practiced*
- *Need to sign up as a US school or trick it to thinking you are a homeschool teacher*

Uses

This website is great for personalized learning, blended learning, homework, classroom resource, student-centered learning, ELL and Special Ed. Students.

Potential Worth

Although it's ultimately a content aggregator, this research tool feels like a gift from heaven.

- *Excellent supporting resources for all learners.*
- *Could act as a Dashboard.*
- *Great for that DIY learner.*
- *It's free, and it makes everyone's life a bit easier.*
